What you'll learn

In this course, you will explore the exciting world of interior design and learn valuable skills that will help you become a great interior designer. You will start by understanding the basics of design and how to create spaces that are both functional and beautiful. We will also teach you about lighting design and how to use different colors to create the right mood. We won't forget about commercial spaces like shops and offices - we will show you how to make them look amazing too. And to make things even more interesting, you will get to use special software called COOHOM to create 3D designs that look real. By the end of the course, you'll have the knowledge and skills to start a successful career in interior design.
